

Biotechnology News

May 2017

New personnel/guests

Welcome:

- **Adel Abouhmad** has started his PhD studies in the VR supported project on lytic enzymes for treating mycobacterial infections.
Supervisor: Rajni

PUBLICATIONS

ANDERSSON, J. M., GREY, C., LARSSON, M., FERREIRA, T. M. & SPARR, E. 2017. Effect of cholesterol on the molecular structure and transitions in a clinical-grade lung surfactant extract. *Proceedings of the National Academy of Sciences*, 114, E3592-E3601

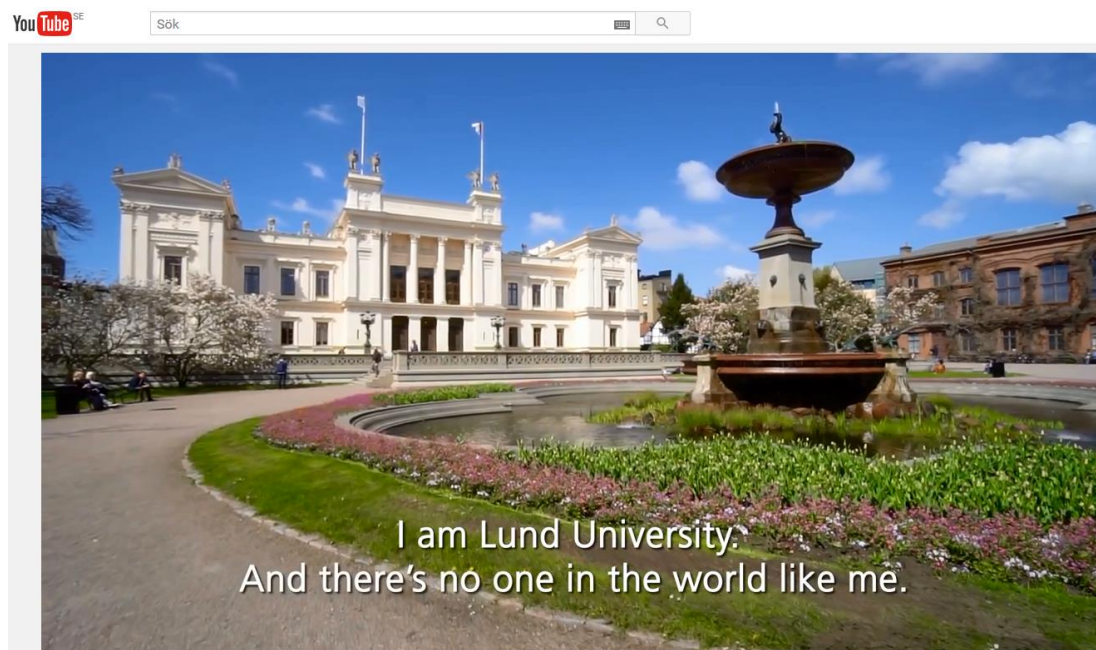

MISCELLANEOUS

- Rajni has been elected as a member of the international review panel *Natural, engineering and environmental sciences* within Development research at the Swedish Research Council (VR).
- The research program STEPS has its program meeting on 30-31 May 2017 at Örenäs Slott, Glumslöv.
- Rajni will be teaching at University of Dar es Salaam, Tanzania, for two weeks in June.
- Rajni will work on an average of 25% at Pufendorf institute between September 2017 and May 2018 in a cross disciplinary project "Universities as drivers of social innovation for inclusive development" involving other researchers from Research Policy, Innovation Studies, Business Administration, Housing and Social Medicine.

Spring excursion, **Monday the 29th of May.**
Glimmingehus and Gunnarshögs Gård

Don't miss the Lund University 350 year Anniversary film:
