

# Biotechnology News

June 2015

## New personnel/quests

**Richard Anthony** from Indonesia will be visiting us until the end of August, here as a guest of Emanuel Ron. Welcome!

- Ramin Sabet will return to the department for 4 months to work in a VR project on monooxygenases.
- Tarek Dishisha will come to work for 3 months between June and September in a project sponsored by Evonik.
- Thuoc van Doan will come for 1,5 month to Lund, from 1 July within the VR supported SRL project on bioplastics with Vietnam and Malaysia.

## Publications

Amin Bornadel, Rajni Hatti-Kaul, Frank Hollman and Selin Kara. A bi-enzymatic convergent cascade for  $\epsilon$ -caprolactone synthesis employing 1,6-hexanediol as a 'double-smart cosubstrate'. *ChemCatChem*. Accepted

Rawana Alkhalili, Rajni Rajni Hatti-Kaul, and Björn Canbäck (2015) Genome Sequence of *Geobacillus* sp. Strain ZGt-1, an Antibacterial Peptide-producing Bacterium from Hot Springs in Jordan. Accepted for publication in *Genome Announcements*

Cecilia Lindström, Anne Voinot, Anna Forslund, Olle Holst, Ana Rascón, Rickard Öste, Elin Östman. An oat bran-based beverage reduce postprandial glycaemia equivalent to yoghurt in healthy overweight subjects. **Int. J. of Food Sciences and Nutrition**, Ahead of Print: Pages 1-6 (doi: 10.3109/09637486.2015.1035233)

---

We congratulate the last two recent doctors to defend their theses for the spring:

Ramin Sabet 2015-04-30

Marisa Punzi 2015-06-08

## MISCELLANEOUS

- As of the last of August it has now been decided that Café Bryggan (same caterer as restaurant IKDC) will take over the cafeteria on floor 0, old Café Ester.

Rajni Hatti-Kaul, from our division, participated at this years' Doctoral degrees ceremony on May the 29<sup>th</sup>.

We celebrated Frans-Peder whom turned 60 years old in May!

**Thank you** all who joined in for our yearly day excursion – this time we had the bus take us to Kiviks Musteri and Stenshuvud. A great day in all!

**Wishing you all a fabulous summer!**
